

NO NO NO NO !!!!!!!!!!!!!!!!!!!!!!!

I am sick and tired of corporate America telling me, forcing me, to do what they want for their best interests.

I am sick of the control and manipulation of my legitimate private, personal control over what I do with what I have already paid for.

Do you understand??

If you pass this disgusting piece of fascist inspired legislation I will do all I can to subvert it, buy alternate technology to beat you people, or, simply, not buy any of your products at all.

None. Zero. And this ridiculous "economy" can go straight to hell as soon as possible :))
